AFRICAN METAL AT CONCESSION

Bank of England Gets It With No Competition from Paris.

NEW YORK, January 25.—Develop-ments over the week-end showed no effect in moving speculative interests in the stock market, although some of them were undoubtedly of import-ance in their financial bearings. Fore-most among these was the fact that the Baule of England was permitted to the Bank of England was permitted to take up the South African gold laid down in the London market at a con-

down in the London market at a concession in price, and without any competition on behalf of Paris.

This is the first week for this to happen since a period well back intellast year, and marks the culmination of the long accumulations of gold by the Bank of France which has been going on during that period.

The yielding tendency in their markets was exemptified in the reduction in price of Southern pig-iron announced for to-day.

Market conditions are composed of movements confined largely to individual stocks, regarding which there are special developments.

There was a group of stocks related to the fertilizer industry thus affected to day by miniors of an intended merger of these companies, aithough sharp relapses followed in some of them. The general list, while neglected and listless, was firm. The redundant state of the money market places no pressure on holders of securities. The fitful price movements of the day in the stock market showed no decision, and the tone at the closing remained uncertain and sluggish.

There were reactions in some bonds which have advanced sharply of late, and this made the tone of the bond division irregular.

DRY GOODS MARKET.

NEW YORK, January 25,—The dry goods market opened strong and jobbers did quite at active trade during the day. The new prices on staple prints go into effect to-morrow. The feature of the business for the moment is the very free ordering of dress goods from the large corporations that are selling for fail delivery. Four of these concerns are reported that at the present rate of progress they will be sold up before the end of the week. Cotton yarms were steadler and the buyers were frequent in the market.
